Hi Julie,

Thank you for your email. I'm copying Lourdes Diaz, our MPB recording secretary, and asking her to attach your email to the Council Agenda Item for the March 18 MPB minutes.

Lourdes - this email came in after the MPB meeting, but we'd like the City Council to be aware of Ms. Bishop's concerns.

Thank you,

Elisabeth Dang, AICP

Good Morning

My name is Julie Bishop

*I live at 3188 Sea Venture
Orlando, Fl. 32827*

I am hoping that this email will help you reconsider the rezoning and destruction of our neighborhood.

I am not asking you to stop all growth just that it does not have to be so close to our homes and take away the little green, forest we have to enjoy. Instead of rezoning 58 acres for industry save some of those acres for forest to block the view, noise and daily destruction of the area.

The area from Tradeport can be rezoned and sold so the industry would be build to have access from that main street leaving our area intact. There is the tree area behind our homes that block, buffer the sound,

noise, smell and negative view from the airport. To remove that will put the airport right in our living rooms. Also to destroy that area is taking away the home for all the animals in that area giving them no place to go but are neighborhood or to become road killer and starve to death.

When I called the project manager he stated we could not see it from our homes .As you can see from 100 6205 which was taken from my backyard you can see it very clearly from the yards. Which in Southport the backyards are the main view from the homes. I was told it will be like the industry that is already in our area behind Great Sound which is pictures 100 6112 thru 100 6122. We already have to deal with that Very noisy and eye sore by our homes

This new industry will cover the whole other side of our neighborhood squaring us in. Increasing the noise , pollution, Ugliness and devaluing our homes.

Southport area is starting to become two sides of the track.

As you can see from 100 6063 thru 100 6104 that when you enter Southport and turn left the homes in that area have the park with eight (8) large baseball fields, concessions stands, two(2) basketball courts with four (4) baskets, couple of large ponds with fountains, several gazebos, walking paths with park benches, outdoor grills and picnic benches, complete play ground, a separate baseball field with it own woods and picnic area, area for model planes and several open areas surrounding the park itself. Where our side to the right has nothing but homes and industry. The only area we have to walk around to enjoy open fresh air park like is what is be rezoned and turned into cement. With this rezoning that will be taken away from us.

I do not know how the homeowners on the right side of Southport have been able to get all the family friendly sites by them and all the industry on our side but we are asking for the same consideration. Even looking at 100 6076,6077,6141,6205 you can see the difference in the property between the road and the homes from the different sides of Southport. The difference is double to 4 times the amount of land between their homes and the road as to our homes.

Please all I am asking for is your help and consideration to not destroy our neighborhood with another industry behind our homes. To look at the differences in the areas and give us a chance to keep our area beautiful, family friendly, green, a place to walk our pets and ride our bikes and get some fresh air.

I understand our neighborhood is not high value homes but we are hard working people who take pride in our homes, neighborhood and families and deserve the chance to keep it what we work very hard for. We are not asking for a hand out just to support our area.

Please take a fresh look at our area and support saving our homes, families and neighborhood

Thank You

Sincerely

Julie Bishop
