These stations have reached their useful life and are in need of improvements. These stations need replacement of electrical, instrumentation, mechanical components and have areas classified as confined spaces, causing maintenance difficulties, reliability, and safety issues. Such modifications will increase stations reliability, operational issues, eliminate confined space risks and hazards. The City and Tetra Tech, negotiated a not-to-exceed fee proposal of \$259,106.32 for this project and staff considers fee proposal reasonable and appropriate for this project
