Thanks for getting back with me Mark. I am hoping to be able to pick that letter up from them today and I will bring it over to you. I would like to see a 5 year extension or at a minimum of 3 years. We have been in communication with the Parliament House about selling the lot to us so that we can move forward with making the necessary improvements. They are very receptive to our purchasing the lot however they are entangled in some bankruptcy proceeding that as I understand restricts them from moving forward with the sale at this time. As for the improvements needed to bring it up to code we are willing to make some moderate improvements however with the pending legal activity we would not want to make a large investment until we have site control.

Bakari - I believe we still need something in writing from the land owner requesting this extension. Also, what are the terms for this extension? How many years and what will be

done in the meantime to bring the site up to code?
