

Kevin McGovern is the Fleet Operations Heavy, First Shift Supervisor.

Kevin was born in Dubuque, Iowa and worked the family owned farm until he was 14 years old and then began working at the family owned gas station for two years. Kevin completed his Iowa career by working two years at the family owned truck stop.

Kevin never cared much for cold weather and he moved to Florida in 1974. At that time Kevin was dating his future wife Patricia, and a year later they married. Kevin considers this to be the best decision of his life and after 40 years of service with the City, thanks God and the City of Orlando for the opportunity to serve the Public.

Kevin recognizes that he could not have accomplished the past forty years of success here at the City without the support of his loving wife Patricia and his family.

Kevin also wants to thank his coworkers and the management team for their support and a job well done by them.

Kevin is joined here today by his wife Patricia, his son Jeffrey (a Fire Engineer) with our Orlando Fire Department and his daughter Barbara.
