Dean Grandin
City of Orlando Planning Division
400 South Orange Avenue
Orlando, 32801

Dear Mr. Grandin,

As you are aware, Coalition for the Homeless has been in partnership with the City of Orlando to build a new Men's Service Center facility. While the building project is in final stages of completion, the project is not. The final phase of the project is the tear down of the old facility and building a new parking lot. I can't say with certainty when that final phase will be complete.

I am writing to request that the City of Orlando allow the fencing around the property on Grove Park and Terry to remain intact until such time as the project is finalized. It will be helpful for our construction staging for the fencing to remain.

Please feel free to contact me at 407-426-1251 should you have any questions or need clarification.

Sincerely,

Brent A. Trotter
President/CEO
