Re – Summary in Support of Temporary Use Permit Orlando Science School

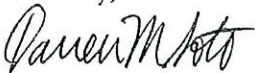

Dear Mr. Burnett,

The parties request a Temporary Use Permit until **October 1, 2014** regarding 15 portables already in existence by virtue of CUP2012-00003. This proposed Temporary Use Permit is in the best interest of the City of Orlando and Orlando Science School insofar as additional time will allow for an orderly disposition of these modular classrooms. With construction pending at the Technology Drive, this orderly disposition is critical to assure ample time and space for enrolled students during the 2014-2015 school year and this transition period.

Ultimately, Orlando Science School may seek an amended or new CUP for 6 of the 15 modular classrooms prior to the expiration of the potential Temporary Use Permit. This proposal would request keeping 6 modular classrooms located in Tract B while removing those facing Mr. McNulty's property where development is anticipated.

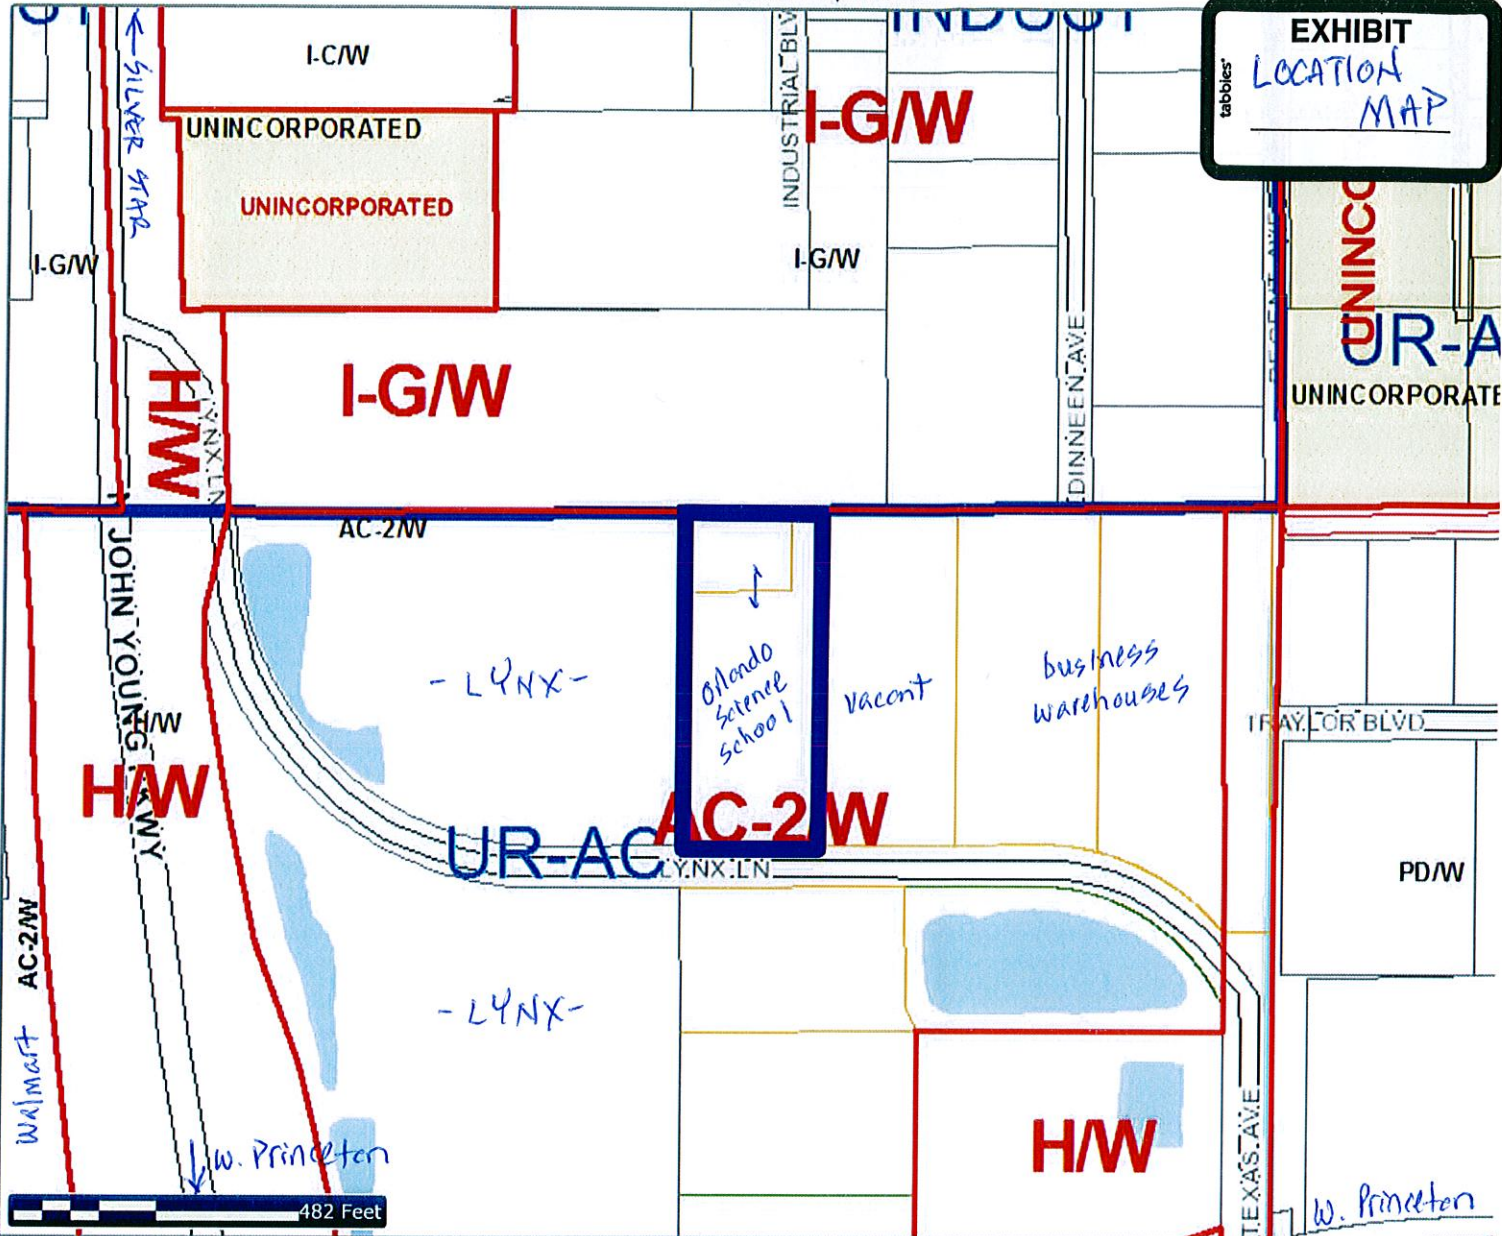

Per your request, we are enclosing the Request for Determination Form and a \$200 check. Please advise if you require any other information or actions. Thank you in advance for your attention to this matter.

Sincerely,

Darren M. Soto
