12. JUSTIFICATION: Document justification for request. Include anticipated economies or efficiencies to be realized by the City, including reductions in personnel or actual cost (cash flow) reductions to be realized in your budget. Lake Angel and Conroy Basin are isolated drainage basins that have no outfall to other surface waters. Flooding of residential and commercial areas occurs in the Lake Angel/Conroy drainage basin because of inadequate storage capacity available at the area. The solution to flooding involves improving stormwater conveyance and creating additional storage volume. The project is construction of a stormwater pond for the storage expansion.
