being referred to as the "Philadelphia Avenue Abandonment Area"), and (3) a segment of Midway Drive, generally located east of the existing Alden Road and west of the exiting Philadelphia Avenue (by itself comprising approximately 0.18 acres of land, being more precisely identified by the metes and bounds description and depicted by the sketch of description attached to this ordinance as **Exhibit C**, and such area hereinafter being referred to as the "Midway Drive Abandonment Area"); and

WHEREAS, based upon the evidence presented to the MPB, including the information and analysis contained in the "Staff Report to the Municipal Planning Board" for abandonment application case number ABN2014-00004 (entitled "Items #6A, 6B, & 6C – The Yard @ Ivanhoe" and hereinafter referred to as the "Staff Report"), and subject to certain conditions, the MPB recommended that the City Council of the City of Orlando, Florida (the "Orlando City Council"), approve the abandonment application and adopt an ordinance in accordance therewith; and

WHEREAS, the MPB found that the abandonment application is consistent with:

WHEREAS, the Orlando City Council hereby finds that this ordinance is in the best interest of the public health, safety, and welfare, and is consistent with the applicable provisions of the City's GMP and LDC; and

WHEREAS, the City Council of the City of Orlando, Florida, hereby finds and determines that, subject to the conditions contained in this ordinance, the Alden Road Abandonment Area, the Philadelphia Avenue Abandonment Area, and the Midway Drive Abandonment Area are each no longer useful and needed for public right-of-way and that it is in the best interest of the public health, safety, and welfare that they be vacated, closed, and abandoned as public right-of-way; and

WHEREAS, the Alden Road Abandonment Area, the Philadelphia Avenue Abandonment Area, and the Midway Drive Abandonment Area are all located within Orange County, Florida, and within the jurisdiction of the City of Orlando, Florida (the "City"); and
