**12. JUSTIFICATION:** Document justification for request. Include anticipated economies or efficiencies to be realized by the City, including reductions in personnel or actual cost (cash flow) reductions to be realized in your budget. The Wastewater Division has identified the anaerobic digestion system complex as being in need of substantial rehabilitation, upgrades and improvements to replace the aging infrastructure that was originally installed in 1986. The scope of supply from Schwing Bioset includes furnishing a "Class A" biosolids treatment process called Bioset and six (6) months of hauling, conversion to fertilizer and distribution of the final product. This process will replace the aging "Class B" anaerobic digester system and provide a reliable biosolids management system that does not rely on land application.
