10.4. Responsible Contractor's Policies.

10.4.1. The **DESIGN/BUILDER**, when paying its workers on this Project, shall pay such workers an hourly wage, based on classification for the Orlando region established by the Davis-Bacon Act (40 U.S.C. 276a-7) as supplemented by the Department of Labor regulations (29 CFR part 5) (hereinafter "hourly wage"). Additionally, **DESIGN/BUILDER** shall provide said workers with health benefits. **DESIGN/BUILDER** may satisfy this health benefits requirement by providing to its workers on this project either 1) health benefits through a bona fide program or 2) by increasing the hourly wage by 20%. Evidence of the existence of a bona fide health benefits program must be submitted to the **CITY** with the bid at the time of bid opening. The **CITY**, in its sole discretion, will determine whether a bona fide health benefits program is acceptable to the **CITY**. Payment of the appropriate wages must be documented in **DESIGN/BUILDER's** progress payment applications by the submission of certified payrolls by **DESIGN/BUILDER** for the duration of this Agreement. Moreover, **DESIGN/BUILDER** shall require compliance with these provisions for health benefits, Davis-Bacon hourly wages and certified payrolls by **all** Subcontractors at every tier, and **DESIGN/BUILDER** will be held responsible for compliance by any Subcontractor or lower tier Subcontractor. The **DESIGN/BUILDER** and construction Subcontractors shall each provide written notice to their workers classified as independent contractors of their classification status within seven (7) days after contract award or within seven (7) days of hiring if hired subsequent to contract award. Documentation demonstrating compliance with this requirement for each worker classified as an independent contractor shall be submitted by the **DESIGN/BUILDER** with its first Application for Payment. For those workers classified as independent contractors hired after submittal of the first Application for Payment, documentation demonstrating compliance with this requirement shall be provided with the first Application for Payment submitted subsequent to the worker's hiring.

10.4.3. The **DESIGN/BUILDER** shall utilize the U.S. Department of Homeland Security's E-Verify

system, in accordance with the terms governing use of the system, to verify the employment eligibility of all new employees hired by the **DESIGN/BUILDER** during the term of the Contract. In addition, **DESIGN/BUILDER** shall require any subcontractors performing work or providing services pursuant to the Contract to verify the employment eligibility of all new employees hired by the subcontractor during the term of the Contract. Documentation of E-verify confirmation shall be submitted by the **DESIGN/BUILDER** with the first Application for Payment, or for those workers hired after submittal of the first Application for Payment, with the first Application for Payment submitted subsequent to the worker's hiring.

10.4.4. The **DESIGN/BUILDER** shall post a copy of the **CITY's** Living Wage and Responsible Contractor's policies at designated locations on the Project site as required by the Contract Documents.

If several materials are specified by name for one use, **DESIGN/BUILDER** may select any of those so specified, and if an item or class of material is specified exclusively by trade name or by name of the maker or by catalog reference, only such items shall be used (unless the ENGINEER approves a substitution therefor in writing). **DESIGN/BUILDER** may substitute another material for one or more specified by name only after receiving prior written approval of ENGINEER therefor. **DESIGN/BUILDER** shall inform the ENGINEER of any reduction or increase in cost incurred by the use of such substituted material as well as provide data and samples for the ENGINEER's consideration. No such material shall be used unless approved in writing by the ENGINEER. Wherever the words "approved by", "satisfactory to", "as directed by", "submitted to", "inspected by", or similar phrases are used in the specifications, they shall be understood to mean that the material or item referred to shall be approved by and be satisfactory to the ENGINEER. No substitution shall be made for any materials, articles or process herein specified or shown on the drawings unless approved in writing by the ENGINEER.
