12. JUSTIFICATION: Document justification for request. Include anticipated economies or efficiencies to be realized by the City, including reductions in personnel or actual cost (cash flow) reductions to be realized in your budget. The current lighting fixtures are high in power consumption, and maintenance cost. In addition, with the current design and layout of the lamps, there are various areas within the garage where there are insufficient lights; as such it is a security issue with garage patrons. Replacement of these fixtures with new energy-efficient LED lights will save the City 48% in energy, and operational cost while also meeting the City's "Green Works Initiatives" by reducing greenhouse gas emissions.
