CITY OF ORLANDO

MEMORANDUM

DATE: September 30, 2013

TO: Procurement and Contracts Division Staff

FROM: David Billingsley, CPSM, C.P.M., Chief Procurement Officer

SUBJECT: **Public Input**

The Florida Legislature recently enacted a new state law, s. 286.1114, which requires that all local government boards and committees that are subject to the sunshine law provide an opportunity for reasonable public input prior to taking official action on any item (with the exception of administrative items such as approval of minutes and quasi-judicial proceedings). Such comment must be allowed at the meeting where the board or committee takes action on the item or at a meeting in reasonable proximity to that date. Boards and Committees may adopt rules or policies governing the public input.

Procurement Advisory Committees are affected by this statue since they are sunshine committees and are making an award recommendation to City Council. Procurement Advisory Committees must adopt procedures for all meetings after October 1, 2013.

The statute provides that each committee can provide for its own implementation rules. As such, Procurement Advisory Committees should make a motion at the first meeting to follow these rules. For a particular procurement, the committee may modify or amend the procedures applicable to that solicitation. For example, if the procurement has a large public interest, the committee could establish longer comment periods.

Attached are recommended procedures for public input during Procurement Advisory Committees meetings.

CITY OF ORLANDO

Public Input Procedures
For Procurement Advisory Committees

A. After each motion (and a second) but before committee discussion on all non-ministerial motions, public comment will be permitted. Ministerial motions would be those that are not substantive actions, including most procedural motions, motions to approve minutes, and motions to adjourn.

B. Each speaker is limited to 5 minutes. The Committee Chairperson may grant more time to a speaker, provided that if any other committee member objects to the granting of more time, the committee as a whole will vote on the extension.

C. Public comment is limited to 30 minutes per motion.

D. Groups are to be asked (not required) to appoint a spokesperson to avoid redundancy and stay within allotted time periods.

E. If there are more speakers than would allow each to get their full 5 minutes, time periods will be reduced proportionally to not less than 1 minute per speaker unless the committee votes to extend the comment period. If there are more speakers than minutes in the comment period, by act of the Chairperson without objection from a member of the committee, or after a committee vote if there is an objection, the maximum comment period may be extended. As a practical matter, committees should try to extend the time where possible to allow everyone a chance to speak. If this is not possible due to time constraints or number of requests, comments should be taken in random order from all those requesting to speak until time expires.

F. Each person addressing the committee should give their name and address for the record (minutes). Per the statute, a form asking to speak can be used (which may help with drafting the minutes and establishing priority to speak).

G. Remarks should be addressed to the committee as a whole, not to individual members of the committee. This is not a question and answer period. The public may comment on the issues before the committee, but the committee is not required to respond to questions.

H. Minutes should reflect that public comment was solicited even where no public comment was given, i.e. "The chairperson asked if there was anyone from the public who would like to speak, but no requests were received" or similar words should appear in the minutes.
