12. JUSTIFICATION: Document justification for request. Include anticipated economies or efficiencies to be realized by the City, including reductions in personnel or actual cost (cash flow) reductions to be realized in your budget. The Downtown and East Orlando service area is experiencing significant growth and wastewater flows from this area are projected to grow by almost 40% over the next 25 years. The growth and currently planned upgrades at the lift stations in the project area will result in increased operating pressures in the 66 year old cast iron force mains. A break in the force main system could result in significant public health, environmental, and economic impacts to the Downtown and East Orlando service area. This Phase 1 scope addresses the initial preliminary engineering phase of the project.
