Property Tax

Projection for FY2018 reflects maintaining our millage rate of 6.65 and the growing tax base.

Utilities Services Tax and Communication Services Tax

Projection for FY2018 assumes another decline in Communication Services Tax (\$400,000) and flat Utilities Services Tax.

Sales Tax

The City's Sales Tax Revenue projection assumes growth of \$900,000. This is more conservative than the State's projection and based on some cooling in the economy.

Municipal Revenue Sharing

Portion of sales, use, and fuel taxes collected by the State shared with local governments to help revenue parity.

Local Business Tax

Taxes levied on all city businesses, trades, and professions for operating within the city.

OUC Payments

OUC Payments are a combination of electric franchise fees and a dividend.

Other Revenue Items

- The 6.8% decrease in Transfers In is attributable to:
 - Final repayment of deferred payments from Building Code Fund
 - Moving positions supported by other funds to those respective funds (Code Lien, Risk Funds)
- The 1.0% decrease in Franchise Fees Revenue the result of energy conservation efforts by the public
- The modest decrease in Charges for Services (-1.2%) is attributable to lower projected reimbursement for labor costs
