**MEMORANDUM**

**TO:** David M. Billingsley  
Chief Procurement Officer

**FROM:** Kathleen Beasley  
Training Facility

**SUBJECT:** AXON Enterprises Sole Source

---

The Electronic Control Device (ECD/TASER) is required to satisfy our agency's need for a less than lethal weapon. We are requesting the purchase of the newer X2 model TASER which is only manufactured and available for purchase from AXON Enterprise. There are no equal or comparable substitutes available from any other source. The model we currently utilize is no longer supported by AXON and needs immediate replacement due high numbers of disabled units. The purchase of the X2 TASER will ensure that our ECD program is sustained with the latest technology. We have been purchasing ECD's since 2003 from AXON.
