

March 5, 2019

Blachere Illumination is a division of the international Blachere group with headquarters in France and divisions throughout Europe, Canada and further afield. Blachere has been developing, designing and manufacturing Christmas lighting products since 1972. The USA division was established in 2004 under the control of President, Ronnie Brown. A major strategy of the business is innovation, the seeking out and implementation of new products and technology, and ensuring quality and reliability throughout the product range. All products are manufactured using the latest LED (light emitting diode) technology. The benefits of which include longer product life and lower power consumption - and therefore reduced electricity costs. Blachere Illumination has systems and processes in place to ensure that your project exceeds your expectations.

All of our designs are created in-house by our design teams in France & Portugal. Then, manufactured in our own factories. Our Factory in the US is in Illinois. These products are not manufactured outside of the Blachere Group of Companies. Blachere Illumination is the only company that manufactures this exact item. This product must be purchased directly from Blachere Illumination USA, at the address below. They are unique designs to Blachere Illumination and are not sold by any other manufacturer. The only way to match the snowflakes that were purchased the last two years, is to purchase from our company.

If you desire additional information, please do not hesitate to contact me at (618) 724-1500 or via email a.newbury@blachere-illumination.us. Thank you for your interest in our products.

Sincerely,

A handwritten signature in black ink, appearing to read "Alyn Newbury". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
