

## MEMORANDUM

TO: David Billingsley, Chief Procurement Officer

FROM: Rosa Akhtarkhavari, Chief Information Officer

DATE: June 23, 2020

RE: Use of National IPA contract to procure Dell EMC Avamar Data Domain Solution Upgrade

---

The City's backup system is reaching capacity and end of life support. To address operational sustainability, the Information Technology Department (IT) is requesting your support to purchase Dell EMC Avamar Data Domain solution upgrade by utilizing National IPA Contract 2018011-01 through CDW Government, Inc.

The upgrade objective is to maintain operational data back-up storage. The upgrade will replace the aging Dell EMC grid-based hardware with the newer Dell EMC Data Domain hardware while maintaining the same Avamar software and licensing.

The estimated amount is \$177,220 and includes all hardware, software, implementation services, and up to three years of technical support.

If you have further questions, please contact Ashley Ariaga, Fiscal Manager, at 407-246-3022.
